SUBJECT: Concrete Flume
Country Place

Dear Mr. Woodall,

We are pleased to submit for your consideration a price of \$2,500.00 to remove the existing "flume", reshape subgrade, dowel into the existing concrete and pour a new flume with curbed sides. To include 10 foot x 10 foot rock rip rap on the opposite side of the roadway, **ADD \$850.00**.

To remove the existing concrete valley gutter and replace it to City of Tyler specifications (approximately 152 square feet), we offer a price of \$2,750.00.

If both are done together, we offer a total price of \$4,050.00 (\$1,600.00 flume and \$2,450.00 valley gutter).

Insurance certificates covering General Liability and Worker's Compensation are available upon request.

We appreciate the opportunity of preparing this quotation for your consideration and look forward to working with you on this project. If you have any questions or we may be of further assistance to you, please let us know.

If this quotation meets with your approval, please sign and return one copy to us for scheduling.
